

## Calculus Study Guide, Solutions to Problems from Past Tests and Exams: Mat 135/136 Study Guide (Paperback)

By Sergio Da Silva

Createspace, United States, 2015. Paperback. Book Condition: New. Study Guide. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Written by a current PhD student in mathematics, this calculus study guide contains detailed step-by-step solutions to problems from past tests and exams at the University of Toronto. Based on the MAT 135/136 course, this handbook was written with the student in mind. While the problems originate from U of T, the material is easily comparable to any introductory university calculus course that doesn't focus on proofs. For a more rigorous approach, see the MAT 137 guide. After being a teaching assistant for the course for several years, Sergio found students constantly asking about solutions from other help manuals. The solutions were either wrong or poorly explained. He saw the need for a more comprehensive solution manual that explained every step in detail. Before beginning his PhD at Cornell University, he wrote this study guide to better help students having difficulty with mathematics.

### Reviews

*This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be he best publication for at any time.*
